

Jaydip Desale

Java Full Stack Developer

Dhule, Maharashtra, India • jaydesale003@gmail.com • LinkedIn • GitHub

Professional Summary

2025 Information Technology graduate with hands-on experience in full-stack development and Java-based backend development using Core Java, Hibernate ORM, Servlets, and Spring Boot. Currently working as a Java Full Stack Developer Intern, building and enhancing enterprise-level web applications with RESTful APIs, MVC architecture, and database integration. Fast learner who enjoys solving problems, building applications, and collaborating with teams. Open to Full-Stack Developer, Java Developer, and Backend Developer roles.

Education

SVKM's Institute of Technology, Dhule
Bachelor of Technology in Information Technology
K. G. B. M. Vidyalay, Kasare
Higher Secondary Education (HSC)

Experience

Robowaves Technologies May 2026 – Present
Java Full Stack Developer Intern Remote / On-site

- Developed and enhanced enterprise-level web applications using Java, Spring Boot, Spring Framework, Hibernate ORM, and PostgreSQL.
- Designed and implemented RESTful APIs following MVC architecture and object-oriented programming principles.
- Built and maintained full-stack applications, including a Recruitment Management Platform (JobConnect) and an Online Shopping Application.
- Implemented authentication, CRUD operations, business logic, and database integration using Hibernate and Spring Data JPA.
- Used Lombok to reduce boilerplate code and improve code maintainability.
- Collaborated with mentors and team members to develop, test, debug, and optimize application features.
- Worked with Git/GitHub, Postman, and Agile development practices for version control, API testing, and team collaboration.
- Followed clean coding standards, exception handling, and layered architecture to build scalable and maintainable applications.

Projects

JobConnect – Recruitment Management Platform | *Spring Boot, Hibernate, PostgreSQL, JSP, Servlet* 2026

- Built a full-stack job portal enabling employers to post jobs and candidates to search and apply online.
- Implemented role-based authentication for Admin, Employer, and Job Seeker using Servlet-based session management.
- Designed RESTful APIs with Spring Boot for job listing, application tracking, and user management modules.
- Used Hibernate ORM for database interactions with PostgreSQL, following MVC architecture patterns.

Developer Management System | *Java, Servlet, JSP, Hibernate, MySQL* 2026

- Built a CRUD-based web application for managing developer records.
- Implemented Create, Read, Update, and Delete operations using Hibernate ORM.
- Developed responsive JSP views and controller servlets.
- Applied MVC architecture for clean code organization.

Technical Skills

Languages: Java, SQL, JavaScript
Backend: Spring Boot, Spring MVC, Hibernate ORM, Spring Data JPA, Servlets, JSP
Frontend: HTML5, CSS3, JavaScript, Bootstrap
Databases: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, Postman, Eclipse IDE, IntelliJ IDEA, VS Code, Lombok
Core Concepts: Java Full-Stack, OOP, REST APIs, MVC Architecture, , Data Structures, Agile Methodology

Certifications

Delta – Full Stack Web Development | *Apna College* 2025

- Comprehensive MERN stack course covering frontend, backend, and deployment.

Elements of AI | *University of Helsinki & MinnaLearn* 2026

- Foundational concepts of Artificial Intelligence and Machine Learning.
